

Outdoor Beanbags - Carambola

Why not expand your living space to the outdoors?

With summer fast approaching, it is time to start preparing our backyards and gardens for impromptu barbecues. Our leather beanbags are now available for outdoors.

The materials used for the outdoors beanbags have been selected for comfort and aesthetics.

Crafted from a fabric specifically known for its durability with a matte finish for elegance. Easy to maintain and clean and most importantly its waterproof capabilities makes the beanbags ideal next to the pool.

All great for the patio or positioned under a shady spot anywhere in the garden. Available in Small, Medium and Large; there is one for everyone.

The large beanbag seats comfortably an adult or two small children.

For more elegant lounging solution to any outdoor area, the Carambola Outdoor Collection brings beauty and comfort.

Available in three different colours: blue, green and black and handmade in our workshop in London.
