

SALONE DEL MOBILE 2015

LEE BROOM PRESENTS 'THE DEPARTMENT STORE'

Critically acclaimed British product and interior designer Lee Broom is transforming a street of disused shops on Via Alfredo Cappellini to create 'The Department Store', his largest exhibition to date with the launch of over twenty new products.

Encompassing furniture, lighting and accessories, the collection will feature new materials and new interpretations of those used in previous collections. Each piece will incorporate traditional manufacturing techniques in innovative ways to produce this highly original body of work, all of which will be presented in a dramatic series of interconnected department store-inspired vignettes.

Lee Broom's trademark theatrical style of presenting his collections has been elevated for this show, striking the balance between formality and fun with modernism and nostalgia.

Lee Broom says: "This is my largest collection to date and I wanted to explore all the things that inspire me right now, from new materials, vivid colours, pop culture, craft culture, techniques from the past and shapes from the future. All of which to be housed in my very own Department Store."

THE SHOW CONCEPT

The Department Store will invite the visitor on an immersive journey through a cinematic pastiche of a store across two floors. Upon arrival, visitors will encounter windows dressed with new products in a scenographic style. Entering on street level, guests will move from tableau to tableau through the exhibition, with each environment representing a surreal take on a different department – including The Perfumery, Ladies Accessories, Gents Fitting Room, Book Store and Haberdashery. Each department will act as a backdrop, finished in Lee Broom signature grey to accentuate the colours and materials of the new pieces. The final area will be The Stock Room displaying Lee Broom's most popular and iconic pieces from past collections.

THE NEW COLLECTION

The Department Store comprises of twelve different departments featuring over twenty new products throughout the store. Broom explores the balance of abstract shapes and silhouettes and incorporates a primary colour palette of vivid red, petrol blue and neon yellow together with more neutral tones from natural materials such as wood and marble. Highlights from the new body of work will include:

Hanging Hoop Chair: Suspended from above, two circular brass-plated hoops join to create the Hanging Hoop Chair, with the seat and backrest upholstered in Kvadrat wool.

Crescent Light: An illuminated sphere sliced in half to reveal a crescent-shaped brushed brass fascia, Crescent Light seamlessly combines the solid and the opaque.

Ring Light: A polished brass sphere, pierced by a dimmable circular fluorescent tube to form Ring Light, a pendant of simplicity and elegance.

Glass on Brass: A new line of glassware, Glass on Brass balances crystal vessels on solid spun polished brass bases in a meeting of delicate and robust materials.

Chapel Light: Utilising a thousand-year old technique, Chapel Light houses a geometric pattern of a hand-crafted stained glass window beneath a black spun dome, casting a warm and ambient glow.
