BY FOGLEZZO LEATHER

NOT FOR YOUR EYES

Foglizzo Leather, in collaboration with l'Istituto Ciechi di Milano (The Blind Institute of Milan), is pleased to invite you down a path immersed in darkness to highlight the dimensions of leather that are beyond sight.

Guided by the blind, guests will gradually rediscover their sense of touch, smell, taste and sound. In the total absence of light, aesthetic elements become secondary, and the dark reveals perceptions that sight often hides.

A singular experience open to everyone, this wholly sensuous journey will challenge traditional perceptions of daily life.
