

PRESS RELEASE

Table PAPILIO
Absolutely unique!

The design concept of the table harmonizes perfectly with the natural features of the material creating a harmonious link between organic and geometrical forms.

A Tree Trunk Table from two mirrored boards with a narrow gap in between.

These reflect the natural grain of the tree and expose its remarkable annual rings and structures. The synthesis with the fragile, slanting legs gives an exclusive, modern look to the table. The symbiosis between human, nature and room creates true feelings in people. The design concept convinced German Design Council expert jury for ICONIC AWARDS 2016 Label: Interior Innovation – Winner

From the former gigantic oak tree trunk vitamin design presents a challenge with great attention to detail, transforming the material in to artwork with the practical use. Only the particularly gentle and controlled drying process can guarantee the long life of the table. The great art and a valuable unique piece for the office and home.

Solid european oak table treated with herbal oil is available in different sizes.

PRESS RELEASE

AETAS space
Affectionate design across time

The harmonic interplay between single elements and carefully balanced proportions creates a clear shape. The model AETAS is a symbiosis built on values of the past and modern. Especially the link to earlier ages gives a unique charm to the model. Design and contemporary requirements merges in a harmonic way. This mixture also convinced the German Design Council. AETAS was honoured with the Interior Innovation Award 2014 and German Design Award 2015

In 2016 model AETAS takes further development as AETAS space:

- tables in oval shape,
- stools and bar stools,
- sideboards, drawers.

The model AETAS can be supplied in the following wood types: European oak and knotted oak, ash, beech, core beech, American maple, walnut and cherry wood, treated with herbal oil.

PRESS RELEASE

Bed AETAS
Affectionate design across time

The harmonic interplay between single elements and carefully balanced proportions of AETAS creates a clear shape. The particularly detailed legs ensure an elegant design. The reduced slightly sloped headboard provides excellent

relaxing lean back. The skilled workmanship of solid wood bed, right down to the finest details gives a very modern look to the material. A piece of nature, which has been integrated into the lifeworld of the people.

The bed impresses through the its outstanding handcrafted manufacture down to the smallest detail and has just been honoured with the Label ICONIC AWARDS 2016: Interior Innovation – Selection

The bet AETAS can be supplied in the following wood types: European oak and knotted oak, ash, beech, core beech, American maple, walnut and cherry wood, treated with herbal oil.

PRESS RELEASE

PRESS RELEASE

Cabinet units SENA

A tidy, clean and puristic design

Carefully processed wood and colored Bio MDF make it perfect fit for a simple, timeless interior. The sideboard provides not only plenty of storage space but also gives luxury and a pleasant feel-good atmosphere in the living room. Modern, timeless, elegant, delicate and stable.

A tidy, clean and puristic design. An original, practical and modern shelf element. Carefully processed wood and colored Bio MDF make it perfect fit for a simple, timeless interior.

Available in solid wood combinations with or without MDF in all standard sizes or according to customer requirements. Further MDF colors are available upon request.

Wood types: European oak and knotted oak, ash, beech, core beech, American maple, walnut and cherry wood, treated with herbal oil.

Table VIVUS

Butterfly pull-out system - visually and technically intelligent

Easy-to-use pull-out system with fold-out extension leafs for model VIVUS. In the closed position, the possibility of extension of the table is not visible. The elegant extendable table with symmetry of the distinctive edge profile, formally adapted, semi-circular moulded in cross-section legs is an ambient ease for every room.

Thanks to the Butterfly pull-out system the table can be easily extended with playful lightness and in just one swift move up to 100 cm. With one or two folding butterfly leafs hidden in the table with only one-handed operation technology the table can reach a maximum length of 340 cm.

With all these changes the table legs always remain at the outer edges and consequently they do not change anything of the timeless forms of this pull-out table. Spacious legroom is ensured in every position.

Table VIVUS now fits perfectly into any room. Another advantage of this smart giant is the possibility of its complete disassembly for transport purposes – thanks to this a generous dining and conference table can also be transported through narrow staircases.
