

CYBEX by Marcel Wanders will present a global preview of its “Living your most fabulous dream” collection to the press and public during Salone del mobile 2016.

For the first time, the booming child mobility and lifestyle brand CYBEX steps into the world of interior design with the launch of a furniture line for children—but designed for parents—including a high chair, rocker, bouncer, and colorful accessories.

Leading this exciting new collection is internationally celebrated product and interior designer, Moooi owner and creative director, and industry rebel Marcel Wanders. Wanders found a like-minded collaborator in CYBEX founder Martin Pos—both rebels in their fields, constantly in search of new ways of working off the beaten track. This spirit led to the CYBEX by Marcel Wanders collection—a revolution in children’s furniture esthetics.
