

THE REBIRTH OF LOTUS - BRACELET

(Registered Design)

FIRST PRIZE WINNER OF NATIONAL CONTEST

A JEWEL FOR LIFE, A SYMBOLIC JEWELRY TO SHOUT STOP VIOLENCE
AGAINST WOMEN

MARCH 2017 - PIACENZA

The Concept

The battle against violence against women must be fought above all by women. We must never again be silent in the face of abuse and violence, but we must find the strength to react and to recover, just like a lotus flower that is born and reborn from the mud.

The Object

A bracelet is the best choice, as it can be worn and shown in any cultural or stylistic context, with religious clothes or even with a bikini on the beach.

The Color

White, symbol of start and novelty.

The Technique

Additive Manufacturing is an energy-efficient and waste-free technology.

The Production

This bracelet is produced in a limited edition of only 220 pieces. The reason behind this choice is a tribute to the glorious Achaemenid Empire, the ancient Persian empire that survived for 220 years. Persepolis clay tablets testify in depth the role of women during that period and **gender equality**.
