

# VITO NESTA

## a room with a view

On the occasion of the **2018 edition of Milan Design Week**, Vito Nesta presents **Heritage**, a wallpaper series designed for Limonta, recounting a captivating story in the splendid backdrop of **Palazzo Litta**.

Embellished with intricate and detailed drawings of nineteenth-century gobelins, the wallpaper series features protruding, flashy tassels; rolls of wallpaper suspended in a dimly-lit red room - an invitation to enter and interact within its world.

The tones are faded, delicate and soft, showing all without telling. The wallpaper, intricately-decorated, wealthily boasts symbols of **the Oriental worlds** - fantastic creatures, chariots drawn by winged animals, exotic architecture and floral potpourri - paying homage to the **age-old traditions of occidental textiles and ancient tapestry**.

**Heritage** is a project that unites a wide imagination of icons and stories wherein creativity and tradition can in fact co-exist; a sensory, emotional tale of a long history.
