MILANO, 28/02/2019

milan design week 2019

cc-tapis returns to Milano Design Week with Spectrum - Killer knots from outer space, their newest project presented both at the Salone del Mobile fair and in their showroom in Piazza Santo Stefano 10.

This year, the company will take you on a journey through a futuristic laboratory, with designs by Martino Gamper, Patricia Urquiola, David/Nicolas, Maarten De Ceulaer, Germans Ermics, Studiopepe. and the cc-tapis design-lab. Discover all the eclectic aspects of the brand amongst an entertaining and immersive experience in their versatile lab-space with a retro touch, with previews from their newest collections Xequer by Martino Gamper, Fordite by Patricia Urquiola and Plasterworks by David/Nicolas.

about cc-tapis

cc-tapis was created in 2011 by the traditional Persian house Maison Chamszadeh, founded in 1943 and well known in France for the quality of its handknotted rugs. The main headquarters are now in Milan, where a team of designers innovate through a new approach to traditional methods. Undyed raw materials, innovative weaving patterns and techniques are a key part of the process. All cc-tapis rugs are completely handknotted by expert Tibetan artisans in Nepal. A strong respect for materials and for the culture of this ancient craft is reflected in the company's eco-friendly approach to every step of production, ranging from the hand spinning of the softest Himalayan wool to the use of purified rainwater for the washing of the final products, making each one of cc-tapis rugs unique. No chemicals, acids or artificial fibres are ever used in the process. Far from mass production, cc-tapis aims to offer a tailored service to those who understand and enjoy a high-end product, where a three month production time contains a story of ageless culture.
