MILANO DESIGN WEEK 2017

"Répertoire de formes"

For its first exhibition during Milano design week, Delcourt Collection shows its repertory of shapes at Spotti Milano. A selection of interacting pieces designed by Forest & Giaconia, Samuel Accoceberry, Charles Kalpakian and Christophe Delcourt. Pieces of furniture like sculptures (boomerang sofa, monolithic table, carved screen...) and material patches (sanded leather, lacquered wood, polished marble) here draw the outlines of a world where every piece completes, reveals and answers each other.
