

About us

Brothers and Sons (formerly known as eQ+) has the guts to design and develop the impossible. With passion and a lot of expertise we create a surprisingly timeless collection of beautiful functional furniture, made with innovative and sustainable materials. Our brand represents connection. The Brothers and Sons team connects their forces in design, development, innovation and is committed during the entire process. Pushing the boundaries, means setting a new standard. Our goal: Breaking Standards!

Since 2011 Brothers and Sons has already booked succes. We presented our collection at Design District, Dutch Design Week, Salone del Mobile Milan and Super Brands London Design Festival. At Design District we received the Wildcard for our Giraffe table and last year we won first price for the Alumni collection.
