

PATTERN POETRY

Exhibition of Artisan, hand printed wall hangings by Addicted to Patterns studio.

True craftsmanship combined with vivid imagination, hand illustrated and hand printed wall hangings is what they are well known for, made to measure because people and process matters. Hand screen printed with passion, for individuals who care about ethics and aesthetics.

Taking care of the environment means that we carefully choose materials and use eco friendly products.

Addicted to Patterns is Bristol-based studio created by Justyna Medon professional printmaker and surface decoration specialist and Mani Swiatek digital designer and photographer.

Silk Wall Hangings

New addition to our artisan collection are wall hangings made of silk, soft cushions for the wall, decorated with designs that tell the story.
